

AC Cloud Control

Integrate any Air Conditioning system and control it from anywhere

We work close to the major HVAC manufacturers to offer the most reliable and proven Multi-Brand cloud solution for Air Conditioners and Heat Pumps. Move your Air Conditioning system one step forward thanks to the cloud access and the new wide range of possibilities that it includes.

Universal IR Air Conditioner to AC Cloud Control (Wi-Fi) Interface

The AC Cloud Control Universal IR controller allows a complete and natural integration of any IR controlled unit into AC Cloud Control system for profesional HVAC control and monitoring.

Easy Wi-Fi configuration using the native Android and iOS App.

b/g/n Wi-Fi standards supported at 2,4 GHz.

Quick and easy installation (plug and configure the Wi-Fi).

Auto-Learn function to automatically set the IR remote controller configuration.

Simultaneous control of the AC unit by the manufacturer's IR remote controller and by AC Cloud

Control through the App and web.

Integration with 3rd party systems: IFTTT, Google Assistant, Alexa and Siri Shortcuts.

Native Android and iOS App.

Web based dashboard.

Integration of Universal IR Air Conditioners Units into AC Cloud Control.

1 of 3 13/07/2023, 14:24

AC Cloud Control

Description

INFRARED COMMUNICATION WITH THE INDOOR UNIT

The gateway allows the control of the main AC functions via infrared commands. But also, thanks to the IR receiver that the device is equipped with, it is possible to know the real status of the AC unit even the user is controlling it by the manufacturer IR remote controller.

THE SOLUTION

AC Cloud Control devices are developed to interface the AC units and provide cloud connectivity using the local WIFI network. They are b/g/n compatible and use 2.4GHz frequency, ensuring further coverage within the installation, and showing no communication problems due to the optimized IoT communication protocol used. They are firewall friendly since only outbound ports are used, ensuring an easy and secure configuration.

FUNCTIONALITY

Many functionalities are available for the device. Discover everything you can do by checking the AC Cloud Control functions list.

Technical Documentation

Installation Manual	Learn how to install the device in the AC Cloud Control	Download
Datasheet	Find all the specifications around the AC Cloud Control	Download
HVAC Compatibility tool	Find the appropriate solution for your HVAC integration	Open
Quick Wi-Fi Configuration	Learn how to link the AC Cloud Control to the Wi-Fi	Download
Web User Manual	General information about the AC Cloud Control web dashboard	Download
App User Manual	General information about the AC Cloud Control app functionalities	Download
Device Configuration	General configuration of the AC Cloud Control	Download
Device Configuration Video Guides	Learn how to configure the AC Cloud Control following these video tutorials	Watch
Binary Input User Manual	Learn how to configure the binary input	Download
EC Declaration of Conformity	Check the product certification	Download
ETA / WPC Certification	Check the product ETA / WPC certification	Download

ORDER CODE:

INWFIUNI001I000	Universal IR Air Conditioner to AC Cloud Control (Wi-Fi) Interface - 1 unit
1	

INCLUDED COMPONENTS:

Universal IR WIFI Controller.

Installation Manual & Warranty Document.

Power Supply (EU, UK, US, AU heads).

Power Connection additional cable.

Warranty: 36 months.
